*The Recipee*

With energetic and heartfelt performance that displays layers of depth and an instantly memorable sound that tastefully blend textures of R&B, Gospel, Reggae, Pop, Rock and Underground Neo-Soul, The Recipee Band is set to make their mark on the recording industry.

---

The band, consists of Jason Larmond, Otis Williams, Juwayon Clarke and Omar Lunan. Collectively, they have garnered over 2 decades of musicality, spanning from genres and generations from the 50s to present. They continue to acquire high accolades and opportunities with Juno and Grammy winning artists, and respect from seasoned musicians nationally and internationally.

From humble beginnings in churches spanning Mississauga to Toronto, each member shared a respect for learning, creating music, songwriting, performing and sound design. Combining in 2009 at Pearl King Restaurant (formerly Dazzling) and Joe Mamas Restaurant on Toronto's "restaurant row", they began a residency that spanned 7 years. Drawing crowds and creating memorable experiences with each performance, bandmates were requested to tour with various artists individually, while collectively performing at events such as The Harbourfront Centre's "Dancing on the Pier" and "Hot & Spicy Food Festival".

The members of The Recipee are by no means new to the music business itself. Between them they have been on various international releases, tours with international icons such as Justin Timberlake, won a Canadian Urban music award, Juno nominations and drumming championships, and made Top 16 on Canadian Idol. While intensely working on their recording and performing skills, the band has had the opportunity to perform with such acts as Brandy, Muya, The Floacist (Floetry), Foxy Brown, Ginuwine, Usher, 98 Degrees, Jordan Knight of "The New Kids on The Block", Kim Burrell, Roy Ayers, Carvin Winans as well as Canada's very own Kardinal Offishall, Jully Black, Divine Brown, Orin Isaacs, Shawn Desman, Shawn Hook and Massari.

In 2016, The Recipee Band began meticulously preparing their ideas in order to serve a fresh take on live and recorded music from Toronto on all international platforms. "Amuse Bouche" and "Hunger Pains" are their anticipated first EPs to be released in 2019 before their full-length album. Their anticipated first single, "Edges Laid (Tonight)" is available on Apple Music, Spotify, iTunes, Instagram/Facebook, Google Play/YouTube, Amazon, Pandora, Deezer, Tidal, Napster, iHeartRadio, ClaroMusica, Saavn, Anghami, KKBox, MediaNet, Shazam.
